*Teaching in Nursing and Role of the Educator: The Complete Guide to Best Practice in Teaching, Evaluation and Curriculum Development.* Oermann, Marilyn H., et al.

"Comprehensive, evidence-based guidance on the essential components of teaching, including learning theories, teaching methods, new technologies for teaching, curriculum development, evaluation and testing, and accreditation."—Publisher's website.

*Creative Teaching Strategies for the Nurse Educator.* Herrman, Judith  
"Nearly 200 practical, relevant, and easy-to-implement teaching strategies that will help engage your students in any classroom setting.."

*Nursing Now: Today's Issues, Tomorrow's Trends.* Catalano, Joseph T.  
"Explores the issues affecting nursing today and in the future. Case studies, cartoon vignettes, and critical-thinking exercises help you to connect the content to nursing practice. Provides general and NCLEX®-specific smart test-taking tips."

*Lippincott Manual of Nursing Practice.* Nettina, Sandra  
"Classic nursing reference offers expert nursing knowledge and much-needed practical guidance on patient care. Authoritative yet easy to follow, this comprehensive text guides you through the nursing concepts and skills particularly vital for medical-surgical assessment, care, and treatment. Essential for both in-the-classroom and on-the-unit guidance, this is the expertise that all students, new nurses, and medical-surgical nurses need to grasp essential nursing concepts, care management, and procedures."
