Human Resource Excellence: An Assessment of Strategies and Trends. Lawler, Edward E., and John W. Boudreau.

As a field, human resources has been slow to evolve, despite a great need and opportunity for change. Human Resource Excellence delivers the newest findings about what makes HR successful and how it can add value to today's organizations.

Human Resource Management. Carbery, Ronan, and Christine Cross.

This contemporary, global and engaging textbook covers all the core HRM topics. Providing a succinct overview, it gives you the tools to engage your students in critical thinking and to develop their employability skills. Rich in pedagogy, features like HRM in the Global Business Environment and HRM and Organizational Performance prepare your students for the modern workplace.

Human Resource Management: People and Performance. Bradley, Keith.

This book will help managers and students alike explore beyond the traditional methods of human resource management and focus on leading-edge techniques which successfully incorporate the management of human resources into strategic planning.

Research in Personnel and Human Resources Management. Emerald Group.

Designed to promote theory and research on important substantive and methodological topics in the field of human resources management. The series is published yearly and includes papers on issues of cutting-edge importance by some of the very best scholars in the field. It is considered to be one of the most respectable publications in the field of human resources management and acts as a primary resource to both individuals and libraries.
