

SOUTHWEST TENNESSEE COMMUNITY COLLEGE

SUBJECT: Inspection and Copying of Public Records

EFFECTIVE DATE: July 1, 2000; Revised August 23, 2013; Revised April 25, 2022;

Revised September 1, 2026

Purpose

The purpose of this policy is to set forth the procedure for handling public records requests made to Southwest Tennessee Community College (“Southwest” or “the College”) and establish consistent controls for secure electronic production, accessibility, records-retention obligations, documentation of responses, and coordination of legally sensitive requests.

Definitions

Labor- Time reasonably necessary for College employees to produce the requested records, including the time spent locating, retrieving, reviewing, redacting, and reproducing the records.

Labor threshold- Reasonably necessary labor performed by College employees during the first hour of work associated with producing the requested records.

Public Record- Documents, papers, letters, maps, books, photographs, microfilm, electronic data processing files and output, films, sound recordings, or other material regardless of physical form or characteristics made or received in connection with the transaction of official Southwest business.

Public Records Request Coordinator- The employee designated by the President to receive, evaluate, route, track, and coordinate responses to requests to inspect or copy public records. For purposes of this policy, the Public Records Request Coordinator is the College’s Vice President of Institutional Advancement and Communications.

Records Custodian- The office, official, or employee lawfully responsible for the direct custody and care of a public record.

Requestor- A person seeking access to a public record, whether it is for inspection or duplication. For purposes of this policy the requestor must be a Tennessee citizen.

Secure electronic transmission: A College-approved method of delivering electronic records that protects confidentiality, integrity, and system security.

Policy

Records made or received in connection with the transaction of official Southwest business will be open for personal inspection by any citizen of Tennessee during business hours, unless otherwise provided by law or regulation. The person may also request copies of the records. Copying costs are discussed below.

The Vice President of Institutional Advancement and Communications serves as the College's Public Records Request Coordinator ("PRRC"). The PRRC is responsible for administering this policy and publishing any necessary procedures.

The College will administer this policy consistently with applicable law, the most current Tennessee Office of Open Records Counsel guidance, applicable TBR requirements, College records-retention requirements, legal holds, audit requirements, accessibility obligations, and College information-security standards.

Procedure

General Accessibility of Public Records

Southwest employees will provide timely and efficient access to Tennessee citizens requesting to inspect or receive copies of public records. No provision of this policy will be used to hinder access to open public records. The integrity and organization of public records and the efficient and safe operation of the College will be protected as provided by current law.

The name and contact information of the College PRRC will be provided to TBR as required. The PRRC will report to TBR as required regarding compliance with the Tennessee Public Records Act and may recommend improvements or changes regarding open records matters.

The PRRC will maintain a request log that documents, as applicable, the date received, requestor contact information, citizenship verification, responsible custodian, acknowledgments and response dates, disposition, exemptions or redactions cited, fees assessed and collected, delivery method, and date closed.

Nothing in this policy authorizes destruction, alteration, or disposition of records contrary to an approved records-retention schedule, pending request, litigation hold, audit hold, investigation, subpoena, or other preservation obligation.

Requesting Access to Public Records

- A. Public record requests must be communicated to the College's PRRC to ensure public record requests are routed to the appropriate Records Custodian and fulfilled in a timely manner.
- B. The PRRC will not require that requests **for inspection only** be made in writing. However, the PRRC will require a written request to facilitate recordkeeping and ensure accuracy in fulfilling the request. The PRRC will request a mailing or email address from the Requestor for the purpose of providing any written communications required under the Tennessee Public Records Act.

- C. Requests for inspection only may be made orally or in writing using the Public Records Request Form provided herein as “Attachment A” on page 10. Requests for inspection may be presented in person or by mail, phone, fax, email, or internet portal.
- D. Requests for copies, or requests for inspection and copies, shall be presented in writing using “Attachment A” on page 10 herein. Requests for copies may be made in person or by mail, phone, fax, email, or internet portal.
- E. Proof of Tennessee citizenship by presentation of a valid Tennessee driver’s license (or alternative acceptable form of ID) is required as a condition to inspect or receive copies of public records.
- F. Electronic requests and electronic signatures may be accepted to the extent permitted by applicable law and College procedure.
- G. When available, the College may identify an official online public-records request portal as the preferred submission and status-communication channel. Portal preference will not eliminate submission methods required by law.

Responding to Public Records Requests

A. Public Record Request Coordinator

1. The PRRC for Southwest is the Vice President of Institutional Advancement and Communications. The PRRC will review record requests and make an initial determination of the following:
 - a. If the Requestor provided evidence of Tennessee citizenship;
 - b. If the records requested are described with sufficient specificity to identify them; and
 - c. If Southwest is the custodian of the records.
2. The PRRC will acknowledge receipt of the request and take any of the following appropriate actions:
 - a. Advise the Requestor of this policy and the elections made regarding:
 - (1) Proof of Tennessee citizenship;
 - (2) Form(s) required for copies;
 - (3) Fees (and labor threshold and waivers, if applicable); and
 - (4) Aggregation of multiple or frequent requests.
 - b. If appropriate, deny the request in writing, providing the appropriate grounds, such as:
 - (1) The Requestor is not, or has not presented evidence of being, a Tennessee citizen.
 - (2) The request lacks specificity. (Offer to assist in clarification)
 - (3) The records made confidential by TPRA itself or by other state or federal law are not open for inspection or copying. (Provide the exemption in written denial)
 - (4) The College is not the custodian of the requested records.
 - (5) The records do not exist.

- c. If appropriate, contact the Requestor to see if the request can be narrowed.
- d. Forward the records request to the appropriate Records Custodian in the College.
- e. If requested records are in the custody of a different institution, and the PRRC knows the correct institution, advise the Requestor of the correct institution and PRRC for that entity.
- f. Requests involving litigation, subpoenas, personnel records, student records, law-enforcement records, protected health information, cybersecurity information, active investigations, donor information, or other legally sensitive material will be coordinated with appropriate legal counsel and subject-matter offices before disclosure.

B. Records Custodian

1. Upon receiving a public records request, the Records Custodian will make the requested records available. If the Records Custodian is unsure if an applicable exemption applies, the Records Custodian may consult the PRRC or the appropriate TBR representative.
2. If not practicable to promptly provide requested records because additional time is necessary to determine whether the requested records exist; to search for, retrieve, or otherwise gain access to records; to determine whether the records are open; to redact records; or for other similar reasons, then a Records Custodian shall, within seven (7) business days from the Records Custodian's receipt of the request, send the Requestor a completed Public Records Request Response Form provided herein as "Attachment B" on page 11.
3. If a Records Custodian denies a public record request, the Records Custodian will provide it in writing pursuant to section A.2.b. above using the Public Records Request Response Form, which is "Attachment B" below.
4. If a Records Custodian reasonably determines production of records should be segmented because the records request is for a large volume of records, or additional time is necessary to prepare the records for access, the Records Custodian will use the Public Records Request Response Form, which is "Attachment B" below, to notify the Requestor that production of the records will be in segments and that a records production schedule will be provided as expeditiously as practicable. If appropriate, the Records Custodian should contact the Requestor to see if the request can be narrowed.
5. If a Records Custodian discovers that records responsive to a request were omitted, the Records Custodian should contact the Requestor concerning the omission and produce the records as quickly as practicable.
6. The custodian will document search locations, personnel consulted, records withheld or redacted, and the completion of production when needed to support the request log and annual reporting.

C. Redaction

1. If a record contains confidential information or information that is not open for public inspection, the Records Custodian will prepare a redacted copy prior to granting access to the Requestor. If questions arise concerning redaction, the Records Custodian should coordinate with TBR's legal counsel or other appropriate parties regarding review and redaction of records. The Records Custodian and the PRRC may also consult with the Tennessee Office of Open Records Counsel or with the Tennessee Attorney General's office.
2. When a redacted record is produced, a Records Custodian should provide the Requestor with the basis for the redaction. The basis given for redaction will be general in nature and not disclose confidential information.
3. Student education records are governed by the Family Educational Rights and Privacy Act known as FERPA and other applicable laws and may be disclosed only as permitted by law.
4. The College will use reasonable quality-control measures to verify that electronic redactions are permanent and that hidden data, comments, tracked changes, document properties, or other nonpublic metadata are not inadvertently disclosed.

Inspection of Records

- A. There is no charge for the inspection of open public records.
- B. The location for inspection of records within the offices of the College will be determined by the PRRC.
- C. The PRRC may require an appointment for inspection of the records. The PRRC shall not allow a Requestor to inspect original records outside the presence of a College employee designated by the PRRC. The PRRC must take reasonable precautions to ensure that the integrity of the public records is maintained during the inspection.
- D. Requests to inspect records must be made for a specific record. Southwest is not required to create records or compile information. If the record is unavailable for some reason, such as being used for official business, or filed at a remote site, the Requestor will be apprised of the situation, as well as when to return to inspect the record. All efforts will be made to provide the requested records within a reasonable period of time.
- E. Requests to inspect public records by a representative of the news media, i.e. newspapers, radio, television, magazine, etc., must be made through the PRRC who will arrange the inspection.
- F. Upon request, the College will provide reasonable access accommodations and, when required by applicable law and reasonably feasible, accessible electronic formats. This provision does not require creation of a new record beyond legal requirements.

Copies of Records

- A. A Records Custodian will respond to a request for copies in the most economic and efficient manner practicable.
- B. Copies will be available for pickup at a location specified by the PRRC.
- C. The Records Custodian or a College employee will have the College's printing provider make copies for the Requestor. That employee will then provide the Requestor with an invoice for the copies. The Requestor must pay the invoice in the Bursar's Office and give the receipt to the PRRC, Records Custodian, or designee to obtain the records.
- D. Depending on the form of the records, i.e. microfiche, microfilm, etc., it may be more appropriate for the copies to be made on a department's special copier. In those cases, the copies may be made by the department, however, payment of the copying fee shall still be made in Bursar's Office, and the receipt must be given to the PRRC, Records Custodian, or designee to obtain the records.
- E. If it is not immediately convenient for the Records Custodian or designee to make the copies, the Requestor will be advised when and where the copies will be available for pickup and that payment for the copies must be made in Bursar's Office. All efforts will be made to make the copies within a reasonable period of time.
- F. Upon pre-payment for postage, in addition to the cost of the copies, copies will be delivered to the Requestor's home address by the United States Postal Service. Another means of delivery, such as commercial delivery service, may be chosen by the Requestor, subject to pre-payment of the cost of delivery.
- G. A Requestor will not be allowed to make copies of records with personal equipment if the cost of production of the records exceeds fifty dollars (\$50.00).
- H. Electronic records may be delivered by secure email, secure file-sharing service, approved portal, College-provided removable media at the requestor's expense, or another method approved by Information Technology Services. Requestor-provided storage devices shall not be connected to College systems or equipment.
- I. Electronic records will be produced only in a read-only format.
- J. An extra copy of the records should be made and forwarded to the PRRC, along with a copy of the completed Public Records Request Form provided herein as "Attachment A" on page 11.
- K. The PRRC will retain the request documentation and a production record sufficient to identify what was released. A duplicate of every produced record is not required when the production can be reliably reconstructed or documented.

- L. Before electronic release, the College will take reasonable steps to remove nonpublic metadata, hidden content, comments, tracked changes, credentials, and other information not approved for disclosure.

Fees and Charges and Procedures for Billing and Payment

- A. Fees and charges will not be used to hinder access. The College will assess, estimate, collect, and document charges in accordance with applicable law and the most current Schedule of Reasonable Charges and related guidance issued by the Tennessee Office of Open Records Counsel, together with applicable TBR requirements.
- B. Prior to producing copies of records, the Records Custodians or the PRRC will provide Requestors with an itemized estimate of charges shown on the Cost Estimate Form provided herein as “Attachment C” on page 12. Pre-payment may be required before producing the requested records.
- C. When fees for copies and labor do not exceed one hundred dollars (\$100.00), the fees may be waived by the President.
- D. Requests for waivers of fees more than fifty dollars (\$50.00) must be presented to the College’s Chief Financial Officer (CFO), who is authorized to determine if such waiver is in the best interest of the College and for the public good. The CFO’s opinion will be shared with the President prior to the President making a determination. Fees associated with aggregated records requests will not be waived.
- E. Fees for copies and labor must be paid to the Bursar’s Office in all cases before release of the copies.
- F. copies are as follows:
 - 1. \$0.15 per page for 8 ½” x 11” and 8 ½” x 14” black and white copies.
 - 2. \$0.50 per page for 8 ½” x 11” and 8 ½” x 14” color copies. Prior to copying records in color, the Requestor must consent to paying for the color copies.
 - 3. The charge for a duplex copy will be the same as the charge for two (2) separate copies.
 - 4. If a copy of a public record is produced on a medium-size paper other than for 8 ½” x 11” or 8 ½” x 14”, the PRRC will assess a copy charge equal to the actual cost of producing a copy of the public record, taking into consideration the amount of material, equipment costs, and the cost of the alternative medium.
 - 5. The PRRC must charge the Requestor the actual costs incurred in producing the records in the format requested, in creating or modifying a computer program or application necessary to put the records in a readable and reproducible format, or in accessing backup files if:
 - a. The requested records exist electronically, but not in the format requested;

- b. A new or modified computer program of application is necessary to put the records in a readable and reproducible format; or
 - c. It is necessary to access backup files.
- 6. Information on computer tapes, tape recordings, and other electronic formats should be copied in a printed format whenever possible and an actual reproduction of the computer tape, etc. should not be provided.
- 7. The TPRA does not require the College to provide public records to a Requestor in the format requested by the Requestor (for example, a format that can be manipulated; paper instead of electronic).
- 8. When providing electronic copies of public records, the PRRC will charge per-page copying costs only when paper copies that did not exist were required to be produced in responding to the request, such as when an electronic public record must be printed and redacted.
- 9. The PRRC may charge the actual costs for flash drives or similar storage devices on which electronic copies are provided.
- 10. If an outside vendor is used, the actual costs assessed by the vendor must be charged to the Requestor.

Fees for Labor Costs

- 1. The PRRC must charge the Requestor the hourly wage of the employees reasonably necessary to produce the requested records, above the labor threshold.
 - a. The “labor threshold” is the labor of the employee(s) reasonably necessary to produce requested records for the first hour incurred by the College in producing the records.
 - b. “Labor” means the employee time reasonably necessary to produce the requested records and includes the time spent locating, retrieving, reviewing, redacting, and reproducing the records.
 - c. The “hourly wage” is based upon the employee(s) base salary and does not include benefits.
- 2. In calculating the labor costs to be charged to the Requestor:
 - a. First, determine the number of hours each employee spent producing the requested public records;
 - b. Second, subtract the one (1) hour labor threshold from the number of hours the highest paid employee spent producing the request;
 - c. Third, multiply the total number of hours to be charged for the labor of each employee by that employee’s hourly wage; and
 - d. Fourth, add together the totals for all the employees involved in the request to determine the total amount of the labor costs to be charged to the Requestor.
- 3. Labor costs should be tracked based on tenths of an hour, rounded down.

4. The PRRC should strive to ensure that current employees with the lowest practicable hourly wage be used to fulfill public records requests. However, the PRRC has the discretion to determine that it is more cost effective to utilize a higher-compensated employee if they can accomplish the task more efficiently, which may result in lower total labor costs.

The PRRC has the discretion to determine how payment for production costs must be made (e.g., cash, check, credit/debit card). Payment will be made in the Bursar's Office. The receipt will be given to the College's PRRC, Records Custodian or employee designated to give the copies to the Requestor.

Payment in advance will be required when costs are estimated to exceed fifty dollars (\$50.00).

Copy, media, vendor, postage, delivery, programming, backup-access, and labor charges will be calculated under current state guidance. The College will publish or make available the current charge schedule rather than relying solely on fixed amounts reproduced in this policy.

Labor charges, when authorized, will exclude the applicable labor threshold and will be based on the actual labor reasonably necessary to locate, retrieve, review, redact, reproduce, and deliver responsive records. Timekeeping will use the increment required by current state guidance.

The PRRC will seek the least costly practicable means of fulfilling a request while considering efficiency, subject-matter expertise, confidentiality, and accuracy.

Aggregation of Frequent and Multiple Requests

A. The College will aggregate record requests in accordance with the [Frequent and Multiple Request Policy](#) promulgated by the Tennessee Office of Open Records Counsel when more than (4) requests are received within a calendar month (either from a single individual or a group of individuals deemed to be working in concert).

B. When Aggregating:

1. The level at which records requests will be aggregated is at the College level.
2. The PRRC is responsible for making the determination that a group of individuals are working in concert. The PRRC or the Records Custodian must inform the individuals that they are considered to be working in concert and that they have the right to appeal the decision to the Tennessee Office of Open Records Counsel.
3. The PRRC may determine that certain material is routinely released and readily accessible records and exclude it from aggregation.

Confidentiality Exceptions

A. Exceptions to the right to inspect or copy public records include, without limitation:

1. Records made confidential by the TPRA itself or by other Tennessee law;
2. Records Southwest is required to keep confidential by federal statute or regulation as a condition for receipt of federal funds or for participation in a federally funded program;
3. Information protected by attorney-client privilege, attorney work product, or another applicable privilege;
4. Security-sensitive information, credentials, protected system information, and records exempted to protect information systems or physical security; and
5. Student education records, personnel information, health information, investigative information, and other categories protected by applicable law, to the extent the protection applies.

Other Provisions

- A. Notwithstanding the form of the record, production (copying) of records will be made in a form as best determined by the Records Custodian. No records shall be produced (copied) in a form to further a commercial, business, or similar purpose, i.e. mailing labels, envelopes, telephone numbers list, etc.
- B. This procedure will not apply to Southwest departments requesting to inspect and/or receive copies of records for College business. Notwithstanding, however, the Records Custodian may require the requesting department to certify as to the purpose of its request.
- C. Public record production will not supersede applicable records-retention schedules, legal holds, audit requirements, privacy obligations, contractual restrictions, or information-security controls.
- D. The PRRC may publish procedures, forms, charge schedules, contact information, and submission instructions consistent with this policy. Operational details may be updated administratively without revising the policy when the change does not alter substantive rights or responsibilities.
- E. The PRRC will review this policy and its procedures periodically and after material changes in law, TBR requirements, state guidance, organizational responsibility, or College technology.
